Publications in Books

S.H. Christiansen, M. Schmidbauer, H. Wawra, R. Schneider, W. Neumann, H.P. Strunk
Energetics and Kinetics of Self-Organized Structure Formation in Solution Growth: the SiGe/Si System

P. Luger, B. Dittrich
The Quantum Theory of Atoms in Molecules
Fragment Transferability Studied Theoretically and Experimentally with QTAIM -
Implications for Electron Density and Invariom Modelling

N. Stribeck
X-Ray Scattering of Soft Matter
Springer Laboratory, Springer, Heidelberg (2007)

S. van Smaalen
Incommensurate Crystallography
